SUMMARY

Front-End Developer with the ability to learn and collaborate in rapidly changing environments and compositions. Skilled in creating dynamic and responsive web applications using modern JavaScript frameworks and libraries. Seeking to leverage my expertise in ReactJS and state management to contribute to innovative projects and deliver exceptional user experiences.

EDUCATION

Business Administration

University of Antonine

📅 10/2022 - 06/2023 📍 Baabda, Lebanon

- Managed a marketing project where we looked at Product, Price, Place, and Promotion (4 Ps). Worked on improving how we position our product, set prices, choose where to sell, and promote it. Saw positive results by applying these marketing strategies.

EXPERIENCE

Front End Development Intern

Bearsight Inc

📅 06/2024 - Present 📍 Canada- Remotely

Bearsight builds tools that provide valuable insights. Discover what happened, why it happened, and what will happen next. They develop applications that keep you informed and in control of your business by offering visibility into the KPIs and metrics that matter most.

- Developed dynamic user interfaces using ReactJS, ensuring seamless user experiences.
- Implemented efficient state management using React hooks, enhancing application performance and maintainability.
- Utilized Axios for handling API requests, effectively fetching and mapping data to populate interactive application features.
- Investigated and resolved critical bugs, ensuring the stability and reliability of the application.
- Designed and built interactive, responsive components to optimize user engagement and accessibility.

TRAINING / COURSES

CS50: Introduction to Computer Science

VOLUNTEERING

Community

Applicationeer

📅 03/2024

Led practice sessions, managed social media content creation, and facilitated career consultancy within a dynamic software development community focused on fostering collaboration and professional growth.

INDUSTRY SKILLS

React

GIT UI UX

STRENGTHS

Eager to learn new skills

As a person who is starting out, I am constantly seeking for new ways to grow and expand my skill set.

Not afraid of failure

Strong believer in the mantra that we learn from our mistakes.

Time management

I always set aside time to plan my week and distribute the workload by days so that I can simultaneously meet deadlines and maintain my well-being.

Collaborative

Working on group projects in my college taught me everything there is to know about being a team player.

PERSONAL PROJECTS

BrewBuddy

🔗 https://brewbuddy.netlify.app/

BrewBuddy is your go-to app for exploring and ordering a variety of coffee options. Browse, add to your cart, and checkout hassle-free. Your coffee cravings are just a click away.

- Designed and developed the BrewBuddy application, focusing on a user-friendly coffee menu interface using ReactJS.
- Implemented dynamic UI components and state management with React hooks to enhance user interaction and application performance.
- Addressed and resolved critical bugs to maintain application stability and provide a seamless user experience.
